Empowerment programs for youth with chronic medical conditions

Monday, Feb. 24

5:30 - 7:00pm

Dover, NH

Diabetes & Insulin Pump Training Session for RNs and Volunteer Information Session (Per Diem Paid or Volunteer Opportunities)

Zebra Crossings offers empowerment programs for youth with chronic medical conditions. Whether it is a week-long camp or weekend activities, care is always provided by trained medical staff. We are looking to grow our team of medical professionals who enjoy working with youth. Join us to learn more about summer and year round positions.

5:30 - 7:00 pm Diabetes & Insulin Pumps Training Session. (Free & open to any nurse)

- Presented by a Certified Diabetes Nurse Educator
- Review of diabetes management esp. in high intensity activity situations
- Review of insulin pumps including hands on practice session
- Get all your questions answered!

An optional volunteer information session will be held at 5pm and at 7pm. Learn about:

- A rewarding experience to support Zebra Crossings mission and youth
- Roles & responsibilities of medical staff
- How to apply or get involved.

“The kids were creative and expressive and you could see their self-esteem building.

The experience for me was one that I will never forget.”

~ Zebra Crossings Volunteer

A note for medical staff:

- At every program we aim to have 2 medical staff present including an experienced lead nurse for the day
- Our Medical Director provides medical oversight and standing orders.
- RN's are covered under Zebra Crossings liability insurance.
