

Engaging our Community Virtually

A month ago, Zebra Crossings launched “Zebra Zoom,” providing a teen only option as well as a time for all ages. While it was great to see friendly faces and make connections beyond our households, we had a lot to discover about engaging through a computer screen. In true Zebra Crossings fashion, we opened up our arms, held our head high, and announced, “What a fantastic opportunity to learn!” Then we set to the task of evaluating what was working and researching ways to improve. On Monday, we launched “Zebra Zoom 2.0” with a raucous rendition of Zebra Jeopardy! All who attended gave rave reviews.

See the upcoming ALL NEW programs below. If you tried Zebra Zoom in the beginning, consider giving it a second try. New faces are welcome! Pick and choose or join them all!
